Dear Parent or Guardian:

As required under the No Child Left Behind Act, the district is providing notice about the Supplemental Education Services Program. This program offers academic enrichment instruction by State approved agencies within our locality. The purpose of the program is to help our middle school students, who are eligible for free and reduced lunches, further succeed at school. Services include after-school tutoring. Services are free and based upon a federal allocation available to your child.

Interested parents of qualified middle school children are permitted to select an approved supplemental educational service provider for their child. Enrollment will be prioritized according to economic need and academic achievement. Your child's candidacy must be first confirmed through the District's Grants Office at 845-838-6900 (2030). Upon approval, it is a parent responsibility to select and make arrangements with one of the providers that has agreed to enter into a contract with the district. There is a threshold amount, determined in accordance with State guidelines, allowed to be expended per pupil. The providers who are willing to enter into such contract will be listed on the Pupil Personnel web site under Supplemental Education Services in September.

You must contact the District's Grants Office by Monday October 15, 2007. Supplemental Education Service Providers who have a contract with the District to provide services will be listed in late October.

Sincerely

Dr. Lynne Pampel  
Director of Pupil Personnel and Special Services.
